Bantubilli Sai Siva Meghana

Visakhapatnam, Andhra Pradesh
+91 8143120610 — Email — LinkedIn — GitHub

Education

Andhra University **2024–2026**
M.Tech in Computer Science and Technology

Gayatri Vidya Parishad College of Engineering **2020–2024**
B.Tech CSE (AIML), CGPA: 8.75/10

Experience

Aditha Enterprises LLP (Internship) **Jul 2025–Present**
Frontend Developer
- Developed a social media management platform supporting multi-account workflows and publishing.
- Built dashboards, analytics components, and reusable frontend modules.

SeventhRay Consulting and Technology (Freelance) **Dec 2025–Mar 2026**
UI/UX Designer
- Designed wireframes, user flows, and responsive interfaces under confidentiality obligations.
- Collaborated with stakeholders to deliver usability-focused design solutions.

YUKTII Ventures (Internship) **Nov 2024–Apr 2025**
Trainee
- Contributed to startup evaluation, market research, and social-impact initiatives.
- Supported BHOJANAM and PARINAAM through research and community engagement.

Research & Projects

Cross-Modal Video Summarization (M.Tech Research Paper) **PyTorch, BLIP, CLIP, BART, MFCC, PANNs**
- Developed a VideoXum-based visual and textual summarization framework using gated BLIP–CLIP fusion, ranking-aware temporal modeling, and BART-based text generation.
- Achieved Spearman's Rho of 0.266 for visual ranking; Caption-BART improved BLEU@4 by 73% and CIDEr by 70% over Visual-BART on the same 2,580-video subset.

Drusti (Frontend Developer, Team Lead) **React Native, Expo Go, TypeScript, ML**
- Developed vision assessment modules including distance, color, and magnifier utilities.
- Integrated ML-based support for smartphone-powered eye disease detection.

GibberLink (Frontend Developer) **React.js, Tailwind CSS**
- Developed frontend for an AI multi-agent simulator enabling collaboration and decision-making.
- Designed conversation visualizations and execution-flow interfaces for complex workflows.

Reci (Full Stack) **React, Flask, Python, Scikit-Learn**
- Built a Flask-based recommendation system for Indian recipes using ingredient-driven ML models.

Technical Skills

Programming: Python, JavaScript, TypeScript, C

Frontend: React.js, Next.js, React Native, HTML5, CSS3, Tailwind CSS, D3.js

Backend & DB: Node.js, Flask, PostgreSQL

AI/ML: PyTorch, Scikit-Learn, Transformers, NLP, Computer Vision

Design: Figma, Canva, Blender

Tools: Git, GitHub, VS Code, Expo Go

Publications

Gated Visual Fusion and Caption-Assisted Text Generation for Cross-Modal Video Summarization
Paper accepted by the 14th international ISED Conference, NIT Warangal
